Like a Simpson

I run home just like a Simpson
Telly please hypnotize me

Starring to night: The Media
Staring at the lights in a boxing arena

'Yelling Voices' be my favourite series
While Groening learning how to draw chemtrails fails

I'm a grown up, I won't stay up
I'm in the know, I need no Late Show

Carpe diem is old shit, they kept me busy with it
Now it's goodbye to the blue standby

It's not about the eye you see
It's all about the psychology
You thinking: Are they watching me?
Possibly...
